Congratulations to all the organisers and participants in the 2013 CRIR Student Colloquium entitled “From impairment to participation: Cohesion of research in rehabilitation”, which was held as planned March 22nd at the Institut de réadaptation Gingras-Lindsay-de-Montréal.

During this scientific day two prizes were awarded, one in the name of the FRQ-S for the best oral presentation and the other from CRIR for the best poster.

Here are the details:

1. **FRQ-S Prize – Best oral presentation, entitled:**

   “Characterizing coordination of grasp and twist in hand function of healthy and post-stroke subjects”

   Presented by M. Hamed Kazemi, Ph.D. student in bio-mechanical engineering at McGill University, supervised by Dr Theodore Milner, CRIR-JRH
2. **CRIR Prize – Best poster, entitled:**
“Responses of subjects with visuospatial neglect to dynamic obstacles while walking”

presented by Ms Gayatri Aravind, Master’s student in rehabilitation science at McGill University, supervised by Dr Anouk Lamontagne, CRIR-JRH
